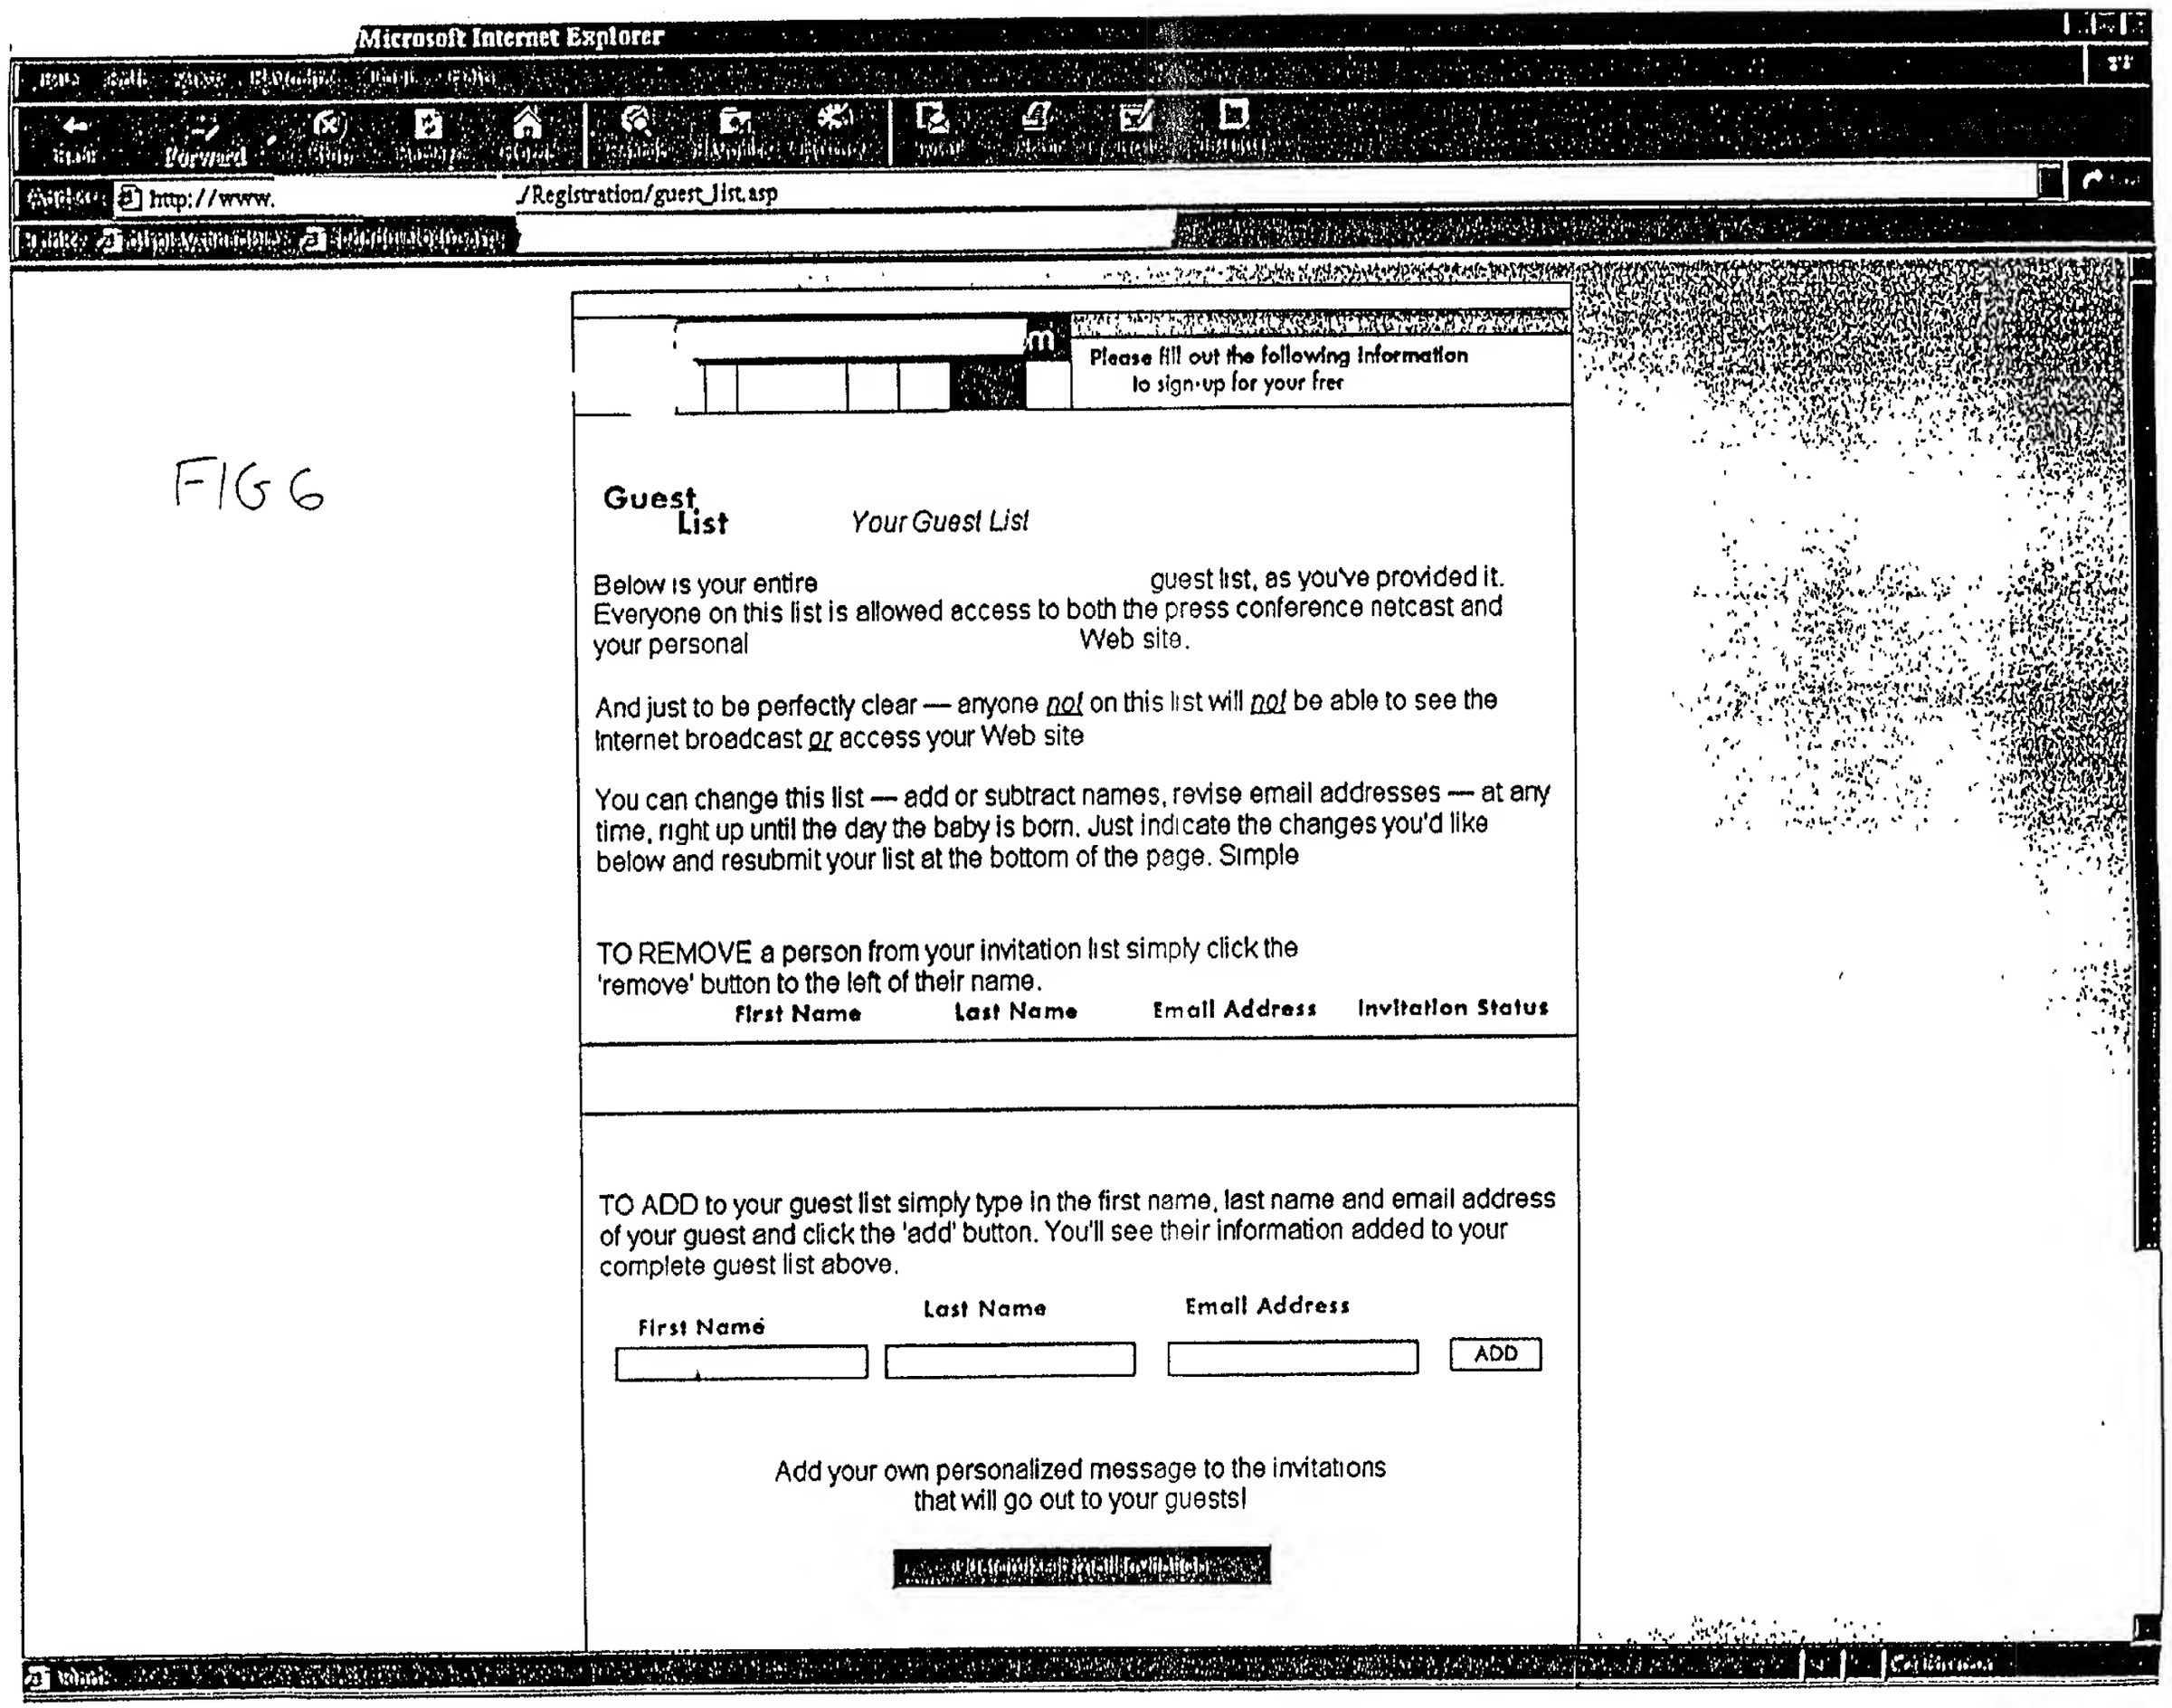
FIG5

Family Page Name
When we create your Family Page for you, we'll put this name at the top of the page. (examples: Larry & Linda's Little One, Our Baby, Our Home Page)
example

Family Name
This will go onto emails that we send to your guests for you (such as the invitation to your netcast), as in 'The Freeman Family Welcomes you to a special event!'
The example Family

Expected Birth Date*
What is your due date?
January 01 2000 ☐ Check here if this is the actual birth date.

Welcome Message
Insert a welcome message here to all the guests that will be coming to visit your Family Page. Announce the pregnancy, welcome everyone to your Family Page, tell how excited you are about the birth. . . whatever you'd like to share!



Microsoft Internet Explorer

/Registration/guest_list.asp
Please fill out the following information
to sign-up for your free
Guest List
Your Guest List
Below is your entire guest list, as you've provided it.
Everyone on this list is allowed access to both the press conference netcast and your personal Web site.
And just to be perfectly clear — anyone not on this list will not be able to see the Internet broadcast or access your Web site
You can change this list — add or subtract names, revise email addresses — at any time, right up until the day the baby is born. Just indicate the changes you'd like below and resubmit your list at the bottom of the page. Simple
TO REMOVE a person from your invitation list simply click the 'remove' button to the left of their name.
First Name
Last Name
Email Address
Invitation Status
TO ADD to your guest list simply type in the first name, last name and email address of your guest and click the 'add' button. You'll see their information added to your complete guest list above.
First Name
Last Name

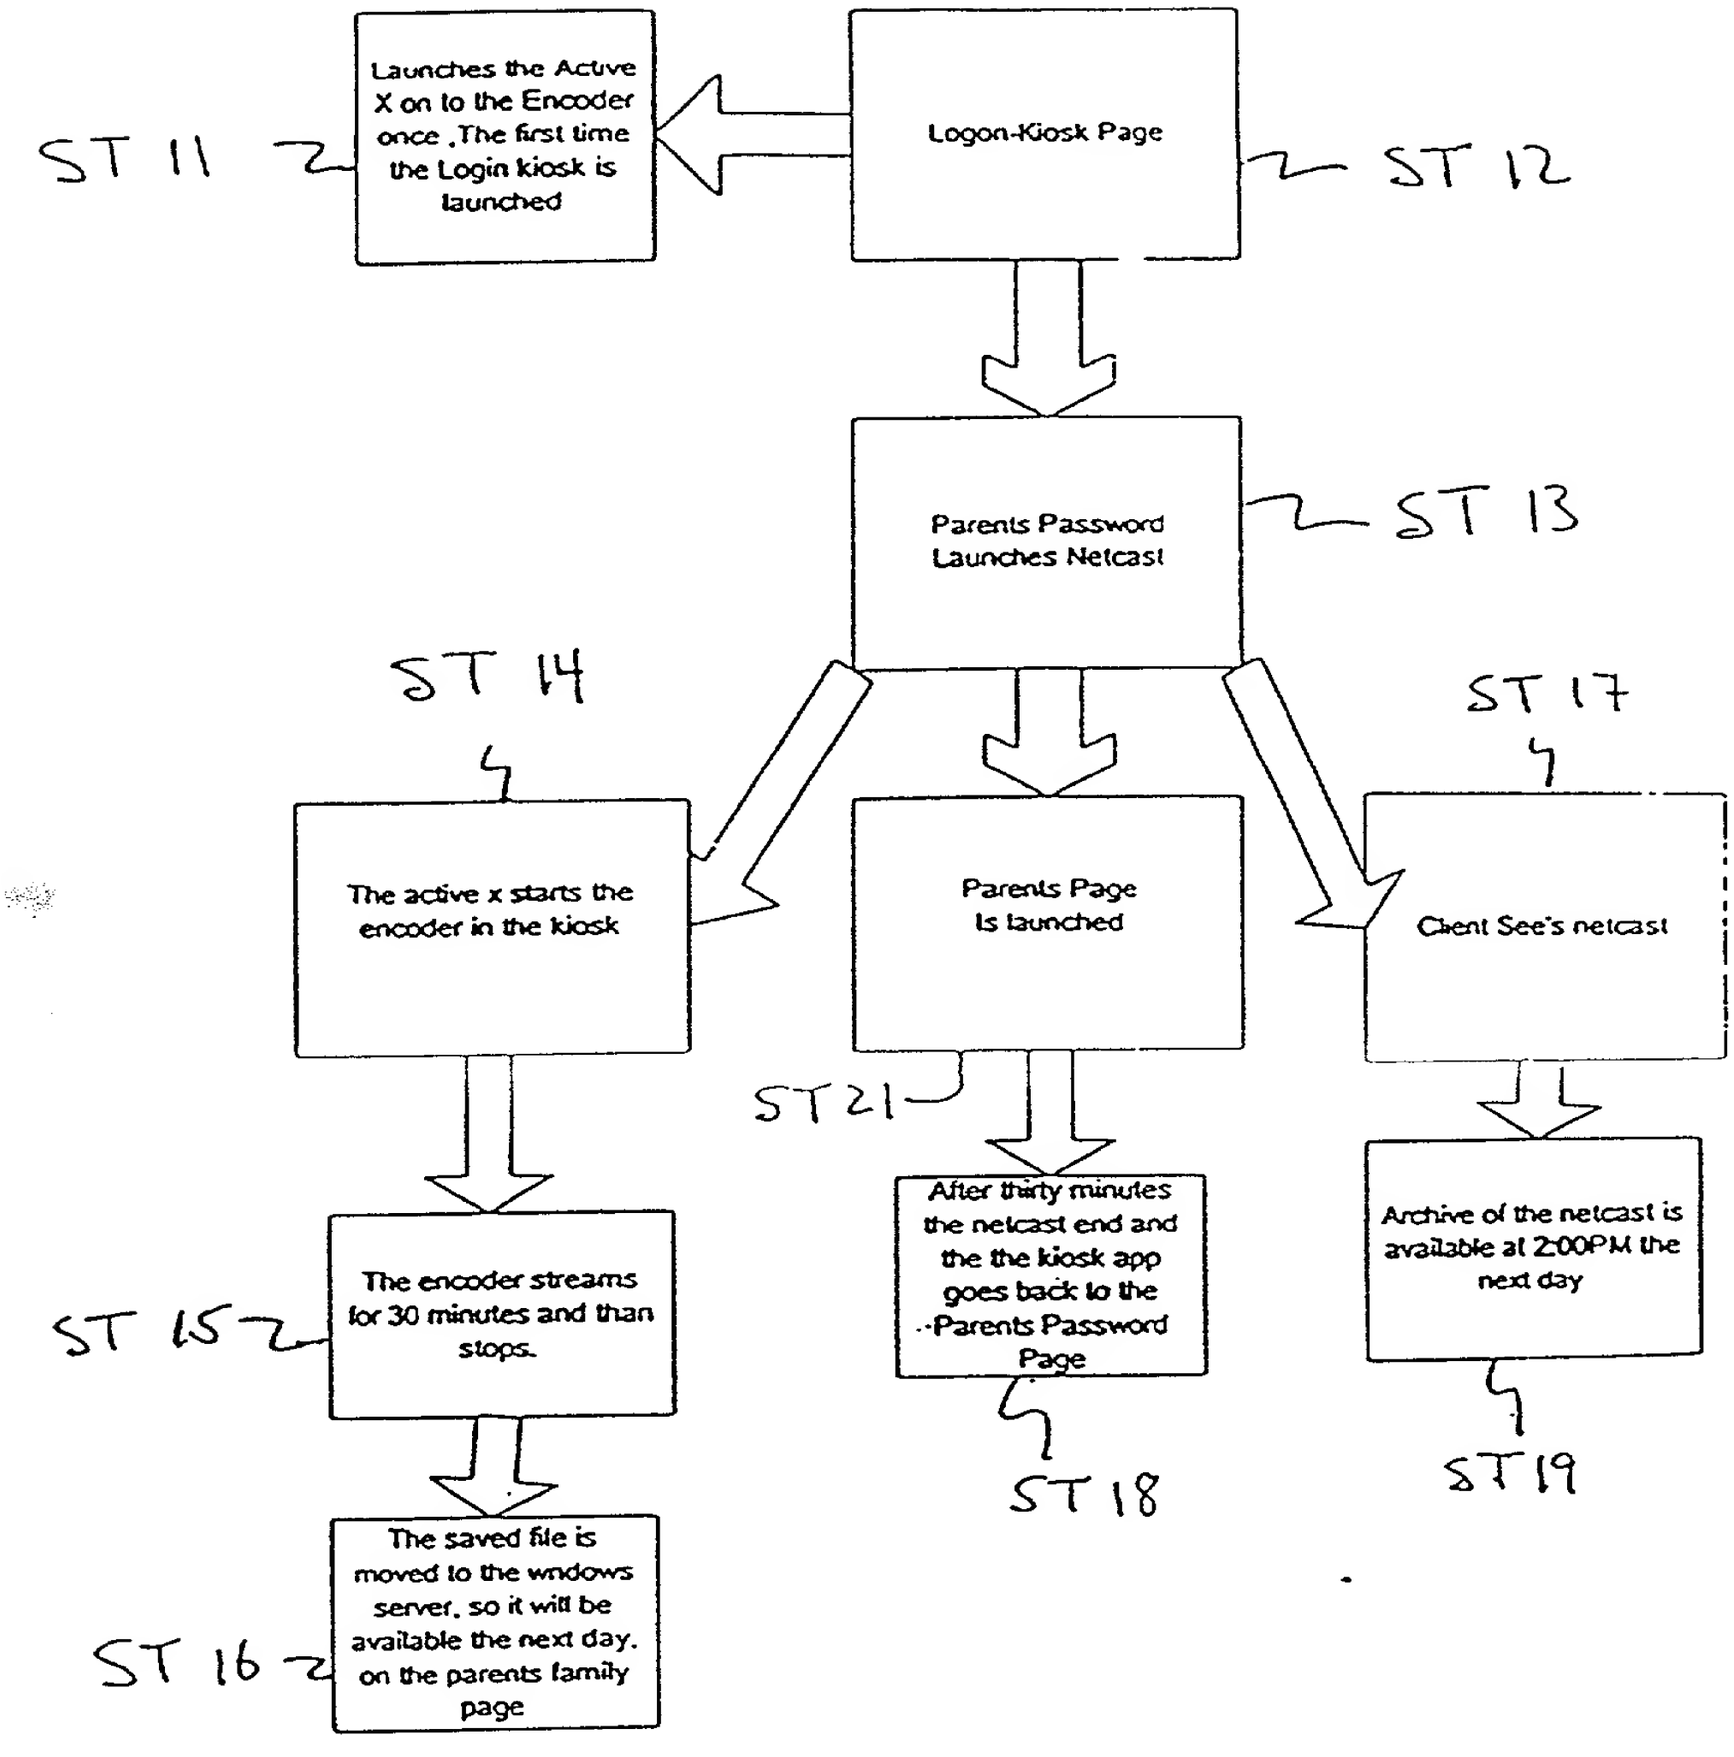
Encoder ActiveX
The asp page which loads this activex . Retrieves the unique filename for the parent from the database
ST 1
This unique filename is passed as a parameter to intialize the ActiveX
ST 2
The ActiveX passes the filename to the StartEncoder method in the encoder.dll
ST 3
ST4
The activeX text box control will display if their are any error messages while starting the encoder
When the time is up for the netcast and we exit the asp page, the terminate function in the activeX is called and automatically stops the encoder
ST 20
encoder.dll
has two functions
this is packaged along with the activex
1.
StartsEncoder(filename) this starts the encoder on the kiosk. (filename is unique and passed as a parameter
ST 5
ST 6
ST 7
ST 8
1(a)
LoadASD=
"d.[kiosk] .asd
1(b)
RecordMaxSize
1(c)
RecordDuration
1(d)
RecordAutoOvemde
=true
1(e)
RecordFileName
=
Filename
ST 10
ST9
2.
StopEncoder: Stops te encoder on the kiosk machine
ST 22



Launches the Active X on to the Encoder once .The first time the Login kiosk is launched
ST 11
Logon-Kiosk Page
ST 12
Parents Password Launches Netcast
ST 13
ST 14
ST 17
The active x starts the encoder in the kiosk
Parents Page Is launched
Client See's netcast
ST 21
The encoder streams for 30 minutes and than stops.
ST 15
After thirty minutes the netcast end and the the kiosk app goes back to the Parents Password Page
Archive of the netcast is available at 2:00PM the next day
ST 18
ST 19
The saved file is moved to the windows server, so it will be available the next day. on the parents family page
ST 16
